Profile Summary

Java Full Stack Developer with **3+ years** of experience in Java, Spring Boot, Angular, REST APIs, Microservices, and MySQL. Passionate about building scalable applications, optimizing performance, and delivering high-quality software solutions.

Education

Sona College of Technology
B.Tech – Information Technology
CGPA: 7.4

Salem, Tamil Nadu
Sep 2018 – Apr 2022

Technical Skills

Programming	Java 17, SQL, JavaScript, TypeScript
Backend	Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Microservices, REST APIs
Frontend	Angular, Angular Material, HTML5, CSS3, Bootstrap, RxJS
Database	MySQL, Stored Procedures, Query Optimization, Indexing
Tools	Git, GitHub, Jenkins, IntelliJ IDEA, VS Code, Postman, Swagger, SonarQube
Cloud	AWS S3
AI Tools	Claude Code, OpenCode AI, OmniRoute AI

Experience

Software Engineer Jun 2023 – May 2026
BOTREE SOFTWARE INTERNATIONAL PVT LTD Chennai, Tamil Nadu

- Developed and maintained enterprise applications using **Java 17, Spring Boot, Angular, Hibernate/JPA, and MySQL**.
- Designed and implemented secure **RESTful APIs** with Spring Security, JWT Authentication, and Swagger/OpenAPI.
- Developed and enhanced **Microservices**, implementing business requirements and integrating services through REST APIs.
- Built responsive Angular screens, Reactive Forms, and integrated frontend modules with backend APIs.
- Optimized MySQL queries, stored procedures and indexing to improve application performance.
- Developed data synchronization services, scheduler jobs, and ETL processes for Distributor Management System.
- Integrated AWS S3 for file storage and distributor data processing.
- Implemented Change Requests (CRs), resolved production issues, and collaborated with QA and business teams throughout the SDLC.
- Participated in code reviews, Git version control, and CI/CD deployments using Jenkins while maintaining code quality with SonarQube.

Projects

Kenvue – Johnson & Johnson (India) Jun 2023 – Oct 2025

Java 17 | Spring Boot | Microservices | REST APIs | Hibernate | MySQL | AWS S3

- Developed enterprise Distributor Management System (DMS) modules for Order Booking, Billing, Inventory, Sales Return, and Collections.
- Designed and implemented secure REST APIs with Spring Boot, JWT Authentication, and Spring Security.
- Built Microservices and real-time SFA integration services for distributor operations.
- Optimized Hibernate mappings, MySQL queries, and indexing, improving API performance by **30%**.
- Integrated AWS S3 for distributor file uploads and ETL processing.

Kenvue – Johnson & Johnson (Philippines)

Nov 2025 – May 2026

Java 17 | Spring Boot | Angular | REST APIs | Hibernate | MySQL | AWS S3

- Developed full-stack modules for inventory, pricing, and distributor operations.

- Built Spring Boot REST APIs and integrated Angular applications using HttpClient and RxJS.
- Developed responsive Angular screens with Reactive Forms and Bootstrap.
- Customized MySQL schema and Hibernate entity mappings for country-specific business workflows.
- Collaborated with cross-functional teams to deliver production releases in Agile environments.

TRIMS – Retail Billing & Inventory Management System

Personal Project || May 2026 - July 2026

Java 17 / Spring Boot / Angular 20 / MySQL / JWT / Docker

- Developed a full-stack retail billing and inventory management application using Spring Boot and Angular.
- Designed REST APIs for Product, Inventory, Customer, Billing, and Dashboard modules.
- Implemented JWT Authentication, Role-Based Access Control, and JasperReports invoice generation.
- Built responsive Angular UI with Angular Material, Reactive Forms, and RxJS.
- Designed optimized MySQL database schema and containerized the application using Docker.
